EXPERIENCE

Hardware developer

GreenRadio

📅 Aug 2020 – Feb 2021 📍 Moscow, Russia

- GreenRadio was an IoT startup. I was contributing in a project of water meter device. I developed modules for things like stm32, nbio devices and others.

Participated in Hackathon

Phystech.Genesis

📅 Mar 2020 📍 Dolgoprudny, Russia

- Me and my team made a telegram bot (using official Telegram API) for students who study there.

ACHIEVEMENTS

- 4.5/5 GPA

SKILLS

- C (C for parallel programming, C for Embedded Systems)
- C++ (C++17, Algorithms, OOP)
- Python (asyncio, tkinter, PyQt), OOP on Python
- Flask, Django, DRF
- PostgreSQL, MySQL
- Git (Work experience with Github, BitBucket and Gitlab)
- Linux
- Jira

EDUCATION

MIPT, Department of Radioengineering and Cybernetics

Dolgoprudny, Russia

📅 July 2018 – Present

Physics and Mathematics Lyceum at MEPhI

Smolensk, Russia

📅 Apr 2017 – July 2018

SOFTSKILLS

- English Advanced
